

CAPABILITIES STATEMENT

Hooghan LLC

STANFORD LAKE, BSCE, PE

Principal Owner

WHO WE ARE

Hooghan LLC has over 26 years of combined engineering, design and construction experience in the private and public sector. Our comprehensive offerings encompass engineering, technical advisory, researching, business development, digital marketing, and drafting construction documents. Hooghan LLC has been designing distinctive:

- ◆ Rural and urban municipal buildings and residential structures
- ◆ Comprehensive technical expertise and collaborative partnerships
- ◆ Sustainability focused projects with cultural competency

CORE COMPETENCIES

ENGINEERING AND CONSTRUCTION: Sustainable Design, Code Compliance, Cost Estimating, Scheduling, Cost Control, Construction Documentation and Administration, and Design Build.

By listening to our clients, we understand what needs to be accomplished with the physical building that need to be built. With a full understanding of client's needs, we put our experience to work delivering a solution that meets our client's goals. By creating safe, inclusive, healthy, and habitable spaces we hope to build meaningful social connections with occupants and the larger community.
